4. Except to the extent contrary herewith, to continue in full force and effect the provisions of Office of Conservation Order No. 435-C, the unit created thereby, and applicable Statewide Orders.
5. To consider such other matters as may be pertinent.

The 2nd Duhon Sand, Reservoir A, in the Perry Field, Vermilion Parish, Louisiana, was defined in Office of Conservation Order No. 435-C, effective September 24, 1985.

The existing unit well has been plugged and abandoned. It is the applicant's opinion that the proposed substitute unit well is necessary to efficiently and economically drain that portion of the reservoir covered by subject unit and that such drilling, designation and use will be in the interest of conservation and will cause no harm or injury to others.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal, along with a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Shreveport District of the Office of Conservation; however, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed is our check on behalf of the applicant, in the amount of \$755.00 made payable to the Office of Conservation and representing the required hearing application fee.

Very truly yours,
